LAC / LOC BORDER FIT

An indigenous, runway-independent unmanned aerial logistics platform built on European flight-proven VTOL engineering, specifically optimized for **harsh Himalayan border resupply (LAC/LoC)**. Combines zero-infrastructure vertical takeoff with high-efficiency fixed-wing cruise for rapid autonomous delivery of critical medical packs, munitions, and persistent tactical ISR overwatch.

- ✓ ZERO-INFRASTRUCTURE VTOL AIRLIFT
- ✓ 5,500M SERVICE CEILING (AMSL)
- ✓ SECURE MANET MESH & BVLOS CRUISE
