

SHIV-NETRA47 AIR DEFENCE SYSTEM PRIVATE LIMITED

AUTONOMOUS AIR SYSTEMS • SWARM INTELLIGENCE • TACTICAL LOGISTICS

MAKE IN INDIA • ATMANIRBHAR BHARAT

Engineering Collaboration: BCN In-House Technology Team

SOVEREIGN UNMANNED AERIAL SYSTEMS PROGRAM

INTEGRATED AUTONOMOUS SWARM & HYBRID LOGISTICS VTOL

A dual-pillar indigenous aerial capability engineered for contested Indian forward operations—delivering continuous multi-tier ISR swarm reconnaissance paired with runway-independent, heavy-cargo tactical logistics for high-altitude border resupply.

OPERATIONAL ARCHITECTURE

DUAL-SECTOR DEFENCE DOCTRINE

- Heterogeneous Swarm: Micro-Nano scouts + Overwatch C2 relay nodes
- Hybrid Fixed-Wing VTOL: Runway-independent, long-range heavy cargo
- NAVIC + Encrypted RF: Contested border spectrum survivability
- Quick-Swap Payload Bays: Medical kits, ammo pods & EO/IR gimbals

100% Runway-Free

VTOL ENVELOPE

Autonomous vertical launch and landing from forward outposts, ships, or rugged clearings.

5 to 200 kg

PAYLOAD CAPACITY

Modular quick-swap bays for medical trauma boxes, tactical ammo pods, or stabilized EO/IR.

50-150 km

NETWORK RADIUS

BVLOS encrypted telemetry with multi-hop swarm mesh routing in contested RF spectrum.

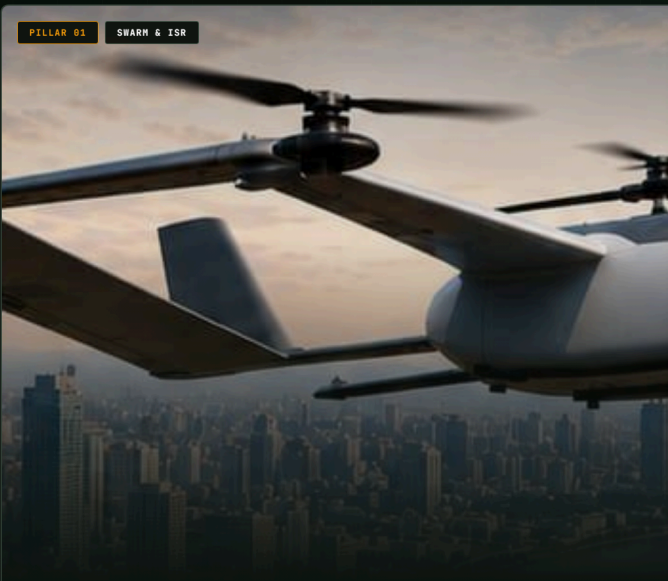

Make in India

SOVEREIGN TPR

Complete indigenous production roadmap aligned with IDEX and Ministry of Defence standards.

PILLAR 01

SWARM & ISR

SWARM & OVERWATCH ISTAR

[SECT 01]

MULTI-LAYER SURVEILLANCE & MESH C2

Heterogeneous swarm architecture linking disposable micro Nano-scouts (350-450g) and long-endurance Overwatch UAV relays (~20kg) via self-healing peer-to-peer data-links.

- Decentralized autonomous collision avoidance and patrol logic
- Real-time EO/IR thermal target tracking streamed to tactical GCS
- Attrition-tolerant multi-node coordination in contested airspace

SWARM FLEET

6 to 24+ Units

CEILING

8,000 ft AML

OVERWATCH HTOW

~20 kg Class

DATA-LINK

Secure Mesh RF

PILLAR 02

LOGISTICS VTOL

HYBRID LOGISTICS VTOL

[SECT 02]

RUNWAY-FREE TACTICAL RESUPPLY

All-terrain hybrid VTOL + fixed-wing platform engineered for forward post resupply, trauma medical delivery, and ammo transport in rugged Himalayan sectors.

- Runway-free VTOL departure with efficient fixed-wing cruise
- Quick-change modular cargo pod for field-swappable payloads
- Emergency parachute failsafe and precision winch drop capability

PAYLOAD CLASS

5-10 to 200 kg

FLIGHT TIME

Up to 180 Min

TRANSIT RANGE

100+ km

NAVIGATION

NAVIC + INS
