

TACTICAL HARDWARE SHOWCASE • INSTITUTIONAL INFRASTRUCTURE • MRO

TACTICAL PLATFORMS, GLOBAL ALLIANCES & DEPOT MRO

Deployable aerospace hardware, certified pilot training academies, European flight corridors, and depot-level lifecycle sustainment.

AEROSPACE ENGINEERING

SOVEREIGN AEROSPACE & UAV INTEGRATION

High-altitude, zero-runway autonomous platforms manufactured and configured for multi-theatre defence operations, surveillance, and tactical logistics.

DEFENCE ELECTRONICS

COMMAND, CONTROL & SENSOR TELEMETRY

Ruggedized military electronics, encrypted telecommand hardware, edge computing nodes, and real-time situational awareness platforms.

AEROSPACE TESTING CORRIDOR

IN-HOUSE FLIGHT TEST FACILITY (SPAIN)

INTERNATIONAL FLIGHT CORRIDOR & ACADEMY VALIDATION

Conducting rigorous flight testing, sensor calibration, pilot operational conversion, and European airspace safety validation supported by our in-house flight test division.

GLOBAL REACH
TECH COLLABORATION

PILLAR 01

ACADEMY

Drone Training & Pilot Simulation

Chartered to provide drone training, pilot training, technical training, simulation and skill development programmes for defence, aerospace, and specialized industrial personnel.

- Advanced Mission Flight Simulation
- Pilot Type Ratings & Certification
- Sensor & Payload Operator Training
- Tactical Mission Commander Courses

PILLAR 02

DEPOT MRO

Depot MRO & Lifecycle Support

Mandated to undertake repair, maintenance, servicing, calibration, modification and upgradation of drones, UAVs and other advanced defence and aerospace systems over their complete operational life.

- Depot-Level Maintenance & Overhaul
- Avionics Recalibration & Upgrades
- Composite Airframe Structural Repair
- 24/7 Defence Field Support Units

PILLAR 03

TRADE & LICENSING

Alliances & Technology Transfer

Authorized to execute procurement, import, export, distribution, technology licensing, collaboration, joint ventures and technology transfer subject to Government of India approvals.

- Bilateral Technology Transfer (ToT)
- In-House European Flight Test Facility
- Sovereign Indian Telecommand & IP
- Compliant Defence Export Pathways

INDIGENOUS DEFENCE ECOSYSTEM • SOVEREIGN QUALITY ASSURANCE

Engineered, assembled, and validated under Indian Defence standards (MoD / DGQA guidelines), ensuring complete indigenous control, export compliance, AS9100D precision, and strategic national autonomy.

INDIGENOUS IP & DESIGN

DAP 2020 COMPLIANT

AS9100D COMPLIANT
